

AHEAD OF THE CHANCELLOR'S HISTORIC LAST BUDGET, SPURT AVIATION LEADS THE NATION IN SAYING "BIG UP GORDON"

Big Up Gordon for...

- ✈ Ensuring our international flights are excluded from Britain's CO₂ targets
- ✈ Protecting the £9 billion aviation fuel subsidy that keeps us all flying
- ✈ Supporting the largest programme of airport expansion this country has ever seen
- ✈ Letting the biggest gas-guzzlers of all get away with murder

HONOURING THIS HERO OF THE SKIES, SPURT AVIATION IS PROUD TO LAUNCH ITS ULTIMATE FREQUENT FLYER CARD: **THE GORDON**

The Gordon, packed full of climate-sizzling benefits ...

- ✈ A free energy efficient light bulb and loft insulating thingy with every flight
- ✈ Hot Air Miles for every tonne of CO₂ your flight produces – and remember, at high altitude, these are multiplied by 2.5
- ✈ The aviation industry's PR guide to getting us to believe flights only account for 2% of CO₂ emissions
- ✈ Biodegradable copy of the Climate Bill that will mulch excellently in five years
- ✈ VIP admission to next week's 'Freedom to Fly' meeting, for the future of binge-flying
- ✈ Our stylish 'Gordon Gets Me High' t-shirt

Why go Green when you can have Brown?
